

Mission Statement

Our mission is to provide support and care to groups who are both vulnerable at risk. We endeavor to provide service users with the tools and skills to become independent and make a positive contribution to society.

We will:

1. Provide quality housing and support through a proven system of quality key working delivered by staff who have gone through stringent recruitment processes, are qualified to do so and possess an enhanced CRB.
2. Promote independence and empowerment in order for individuals to live with sustainability, passion and drive.
3. Welcome diversity amongst our service users and staff and promote an integrated multicultural diverse environment. We welcome all regardless of colour, race, religion, nationality, ethnic or national origins, marital status, gender, sexuality, disability or age whether service user or employee.
4. Equip individuals to make a positive contribution to society from service users by empowering them to live independently, access employment and integrate within the community.
5. Implement strategies that heavily focus on achieving goals directly from service users and provide guidance and facilitation in order to enable our client group to find answers for themselves and become driven to find solutions they previously found impossible.
